HUNTER X

Relentless Discovery. Strategic Offense.

HunterX isn't just scanning for exposures, **it's built to win deals.** Uncover exposed domains, endpoints, and emails in seconds, then turn those findings into sales-ready reports that grab attention, spark conversations, and help you close faster.

Powered by Liongard's intelligence, built for modern prospecting.

What It Does

External Exposure Scanning

Leverages enterprise-grade reconnaissance tools to uncover exposed domains, services, endpoints, and email records tied to a target domain. No agent or environment access needed.

AI-Enriched, Sales-Ready Reports

Auto-generate beautifully branded, prospect-facing reports packed with actionable insights and prioritized risks, including dark web breach findings. These reports grab attention, create urgency, and build trust fast.

End-to-End Visibility

Track every prospect from first scan to close. Monitor scan history, report delivery, and engagement in one centralized workspace.

Liongard-Ready

When the deal closes, keep the momentum going. Instantly create a Liongard environment to jumpstart onboarding and security operations.

> "Visibility is power—knowing when something changes can mean the difference between security and disaster. Liongard gives us that edge."

Purpose-Built For

Aggressive Prospecting

Replace bland outreach with vulnerability proof. Position yourself as a security ally, not just another service provider.

Outbound Campaigns

Empower BDRs and AEs with firepower to fuel targeted campaigns and accelerate sales velocity.

Stealing Market Share

Show what incumbent providers missed. Surface risk. Win the account.

Pre-Onboarding Intel

Gather threat intelligence before the first discovery call, so you walk in with leverage.

Why It's a Game-Changer

1

Strike Before the Competition
Know your prospect's attack surface before they do, and make it part of your pitch.

2

No Setup, All Signal
Launch scans instantly. No agents, no install, no friction.

3

Turn Data Into Revenue
Convert external intelligence into signed contracts with trust-building insight.
